Hi Sankalp,

Find the feedback as below:

I had the pleasure of mentoring **Sankalp Anand** during his internship at Grant Thornton Bharat LLP under the New and Emerging Tech competency. His contributions to the Bunge project, particularly in automating laytime calculations using Agentic AI and Vertex AI, reflected strong technical skills and a solid grasp of scalable AI solutions. Sankalp actively participated in all phases of the solution lifecycle and consistently demonstrated ownership, collaboration, and delivery discipline. I confidently recommend him for roles in AI and data science, where his proactive mindset and technical capabilities will be a valuable asset.

Subject: Thank You for Your Guidance – Request for Feedback & Recommendation

Hi Mohan,

As my internship comes to an end, I wanted to take a moment to thank you sincerely for your support throughout the journey. Your insights, attention to detail, and constructive feedback were incredibly valuable and played a major role in helping us stay on track and deliver effectively.

Working under your guidance has taught me a lot, and I'm grateful for the clarity and direction you provided during the project.

If possible, I'd really appreciate your feedback on the work I contributed during the internship. I'd also be truly grateful if you would consider writing me a letter of recommendation — your perspective would mean a lot as I take my next steps.

Thanks again for everything, and I hope to stay in touch.

Regards,

Sankalp Anand
